

Data accompanying B109: Quaternary Geology of Door County, Wisconsin

Eric C. Carson, Scott R. Brown, David M. Mickelson, and Allan F. Schneider

Bulletin 109-DI • 2016

Description

These files represent the digital information derived from Wisconsin Geological and Natural History Survey Bulletin 109, titled *Quaternary Geology of Door County, Wisconsin*, by E.C. Carson, S.R. Brown, D.M. Mickelson, and A.F. Schneider. The information includes the map as a PDF file and as GIS data with metadata. The GIS data are provided in Esri shapefile format with metadata and layer (.lyr) files. Please see the metadata for information on how the GIS data have been captured and attributed.

To obtain a printed copy of the map and report, please visit our website (wgnhs.org) or contact WGNHS Map Sales (608.263.7389) and request *Quaternary Geology of Door County, Wisconsin* (Bulletin 109).

Digital contents

`terms_of_use.pdf`

`readme.pdf`

(brief description of contents; this file)

data folder

`dr_qg_GeologyLines.shp`

`dr_qg_GeologyUnitAreas.shp`

(see note on page 2 about shapefiles)

metadata folder

`dr_qg_GeologyLines.html`

`dr_qg_GeologyUnitAreas.html`

System requirements

Software for viewing GIS data

- desktop GIS software capable of reading shapefile format (such as ArcGIS), or
- Esri ArcGIS Explorer, available free from www.esri.com

Software for viewing PDF files

- Adobe Acrobat Reader (7.x or higher), available free from www.adobe.com, or
- Adobe Acrobat (7.x or higher), or
- GSView, available free from www.cs.wisc.edu/~ghost/

Kenneth R. Bradbury, Director and State Geologist

About shapefiles

Please note that a single shapefile consists of multiple files that share the same name, but have different file extensions (for example, shp, shx, dbf, prj). Editing or moving any of these files independently of the others could corrupt the data.
