

STRUCTURAL DATA

Lower hemisphere equal-area stereoplots of structural elements in the Baraboo Quartzite; domain boundaries are shown on figure Plate III

- 1a-d. Poles to bedding ( $S_0$ )
- 2a-b. Poles to phyllitic cleavage ( $S_1$ )
- 2c-d. Bedding / phyllitic cleavage ( $S_0/S_1$ ) intersections
- 3a-d. Poles to quartzite cleavage ( $S_1'$ )
- 4a-d. Bedding / quartzite cleavage ( $S_0/S_1'$ ) intersections.
- 5a. Miscellaneous main phase structures
- 5b. Secondary phase structures
- 5c. Late phase structures
- 5d. Poles to cleavage surfaces in quartzite on north limb; also bedding / cleavage intersections.
- 6a-d. Poles to joints
