

Conductivity in $\mu\text{mhos/cm}$

Compiled by I.D. Lippelt, 1986

Explanation

• 305 location and value of sampled well

Chemical analyses by K.L. Lund, 1985.

Analytical instrument used: self-contained conductivity meter.

Reproducibility: $\pm 2\%$ at 50-1000 $\mu\text{mhos/cm}$.

Samples collected January 29, 1985 through July 18, 1985, by J. Tetzloff-Jensen

A part of the Chippewa County Groundwater Resource Investigation, a joint project of the Wisconsin Geological and Natural History Survey and the Chippewa County Board of Supervisors.
