

Preliminary Quaternary Geology of Grant County, Wisconsin

E.C. Carson

Open-File Report 2012-06

Description

These files represent the digital information derived from Wisconsin Geological and Natural History Survey Open-File Report 2012-06, titled *Preliminary Quaternary geology of Grant County, Wisconsin*, by E.C. Carson. The information includes the map as a PDF file and as GIS data with metadata. The GIS data are provided in Esri shapefile format with metadata and layer (.lyr) files. Please see the metadata for information on how the GIS data have been captured and attributed.

To obtain a printed copy of the map, please contact WGNHS Map Sales by telephone at 608.263.7389 and request *Preliminary Quaternary geology of Grant County, Wisconsin* (WOFR2012-06).

System requirements

Software for viewing GIS data

- desktop GIS software capable of reading Esri grid format, such as ArcGIS or Quantum GIS (qgis.org), or
- Esri ArcGIS Explorer, available free from www.esri.com

Software for viewing PDF files

- Adobe Acrobat Reader (7.x or higher), available free from www.adobe.com, or
- Adobe Acrobat (7.x or higher), or
- GSView, available free from www.cs.wisc.edu/~ghost/

About shapefiles

Please note that a single shapefile consists of multiple files that share the same name, but have different file extensions (for example, shp, shx, dbf, prj). Editing or moving any of these files independently of the others could corrupt the data.
